StoneCraft Industries®

Texture for Living.

2025 Profile Book Vol. 1

Texture for Living.

Stone has a unique intricacy that is simply captivating. With such diversity in shape, color and texture, it's easy to see why it can dramatically enhance any exterior or interior space.

Our commitment to craftsmanship can be seen within every textural detail, countless hours spent hand-chiseling each and every natural stone before it was carefully replicated through our proprietary mold techniques. At StoneCraft, we honor the masonry traditions of the past and promise to deliver quality and affordability with every stone we make.

LEDGESTONE

The linear lines of this versatile profile create an appealing contrast of rugged texture and contemporary design. Installed in a dry-stack application, the stones stack tightly together horizontally as the varying stone depths create intriguing shadow play.

Wisconsin Ledgestone

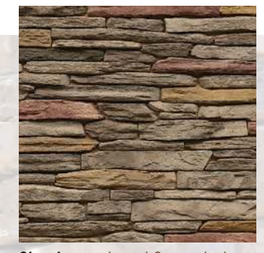

LAUREL CAVERN LEDGE

Laurel Cavern Ledge was meticulously crafted to create a timeless appearance. Handpicked from the rocky ravines and cliffs of North Carolina, this unique profile has rugged yet well defined features.

Heritage in Warm Springs

HERITAGE

The warm and traditional appearance of Heritage lends itself to a wide variety of architectural styles adding elegance to any residential or commercial application. Each stone was originally hand-chiseled by masons to create rugged rectangular ashlar shapes. The profile installs into randomly coursed patterns for an impressive visual statement.

FIELDSTONE

With a wide range of bold angular shapes and rugged surface texture, Fieldstone creates a unique visual dialog. Inspired by rustic European building techniques, Fieldstone consists of intentionally irregular shapes and sizes.

Cobble in Grey

COBBLE

The sandstone textured profile Cobble is roughly chisel-cut into rectangular ashlar shapes. To soften the rugged appearance, the edges are slightly weather worn. Subtle face texture and unique beveling encourage the individuality of each stone.

Because StoneCraft replicates natural stone, variations should, and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques—and actual viewing conditions—can alter perception of color. It is recommended to obtain a sample of StoneCraft before placing an order.
